

Can I concurrently use the Sniffer10G API and the Sniffer10G libpcap interface on the same network adapter?

Model:

Class C ARC Series Adapters- 10G-PCIE2-8C2-2S

Software:

Sniffer10G

Operating System:

Supports both Windows and Linux operating systems.

Information:

By default, no, you cannot concurrently use the Sniffer10G API and the Sniffer10G libpcap interface on the same network adapter. However, you can do this if you set SNF_NUM_RINGS=2 and set the SNF_FLAGS to 0x301 (shared, duplicate), but performance will be poor.
