CSPi Technology Solutions

Professional Services

Our portfolio of professional services support the full IT Life cycle, supporting rapid adoption of new technologies and time to market. We partner with the best of breed technology providers, to provide innovative solutions to our clients. Our engineers have expertise across major industries and hold industry specialized certifications in five core areas of technology; Networking, Wireless and Mobility, Unified Communication and Collaboration, Data Center and Advanced Security.

CSPi Vital Managed IT Services

A Comprehensive One-Vendor Solution at a Lower Monthly Cost

Outsourcing Managed IT Services to CSPi Technology Solutions provides significant savings over implementing and maintaining an internal IT infrastructure, and frees up your technology team to focus on strategic business initiatives.

Our Vital™ Managed IT Services portfolio of solutions includes the following offers:

- **Vital Managed Monitoring and Management Services** – Provides continuous oversight of your critical IT infrastructure 24/7/365 backed by our service-level agreements (SLAs). Our complete network services combine endpoint and server management with proactive infrastructure management to deliver the ultimate in network performance and availability.
- **Vital Managed Security Service** – This comprehensive security solution helps you to mitigate risks and strengthen your defenses. Our endpoint security solutions include data security, network security, advanced threat prevention, forensics, and remote access (via VPN) for complete endpoint protection.
- **Vital Managed Data Backup & Disaster Recovery Service** – Offers you the highest level of availability to eliminate data loss and ensure data protection. Through virtualization technologies you get simplified backup and recovery of your critical data and applications on demand 24/7/365 backed by SLAs. We also ensure you are prepared for the unexpected, with flexible disaster recovery solutions that fit your business needs.
- **Vital Managed Collaboration Services** – While collaboration environments are often fragmented with multiple service networks and different solutions for voice, video, contact center, and collaboration. Our offer delivers management services that support your collaboration solution infrastructure with continuous monitoring and management.
- **Our Promise**
  - One monthly fee for total Managed IT Services support.
  - A strategic ongoing partnership built on industry standards and total alignment to your core business goals.
  - A support plan tailored to meet the needs of your business with a structured response and maintenance agreement.

Your success is our goal
