

Vital Auditing

Gain Complete Visibility into your Managed Environment

CSPi's Vital Auditing solution-Powered by Netwrix guarantees full transparency of your managed environment and delivers complete visibility into IT infrastructure changes and data access by providing actionable audit data about who changed what, when and where each change was made, and who has access to what.

Powered by

Who changed What, When and Where?

See who made a change, when it was made, and what was changed, including the before and after values.

Is my environment secure and ready for compliance audits?

Control what's going on in your IT infrastructure and prove to auditors that required security policies are being followed.

Who has access to what?

Find out who can access cardholder data, medical records or financial statements on your file servers and storage appliances.

Strengthen Security and Streamline Compliance

Full Transparency of your Managed Environment

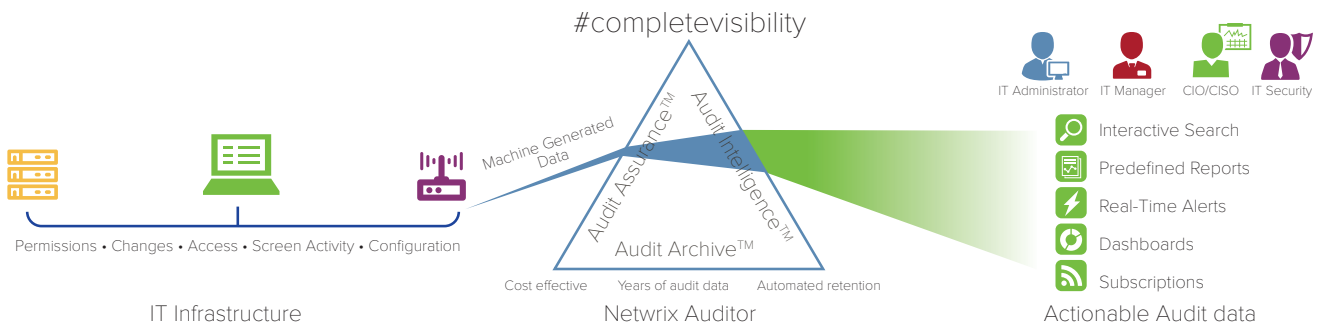

Get a complete picture of third party actions across your environment

- **Monitor changes to critical configurations**
Get a high-level overview of changes made to critical configurations of managed environments with Enterprise Overview Dashboards
- **Control Access to Your Data**
Get a complete picture of the effective permissions for specific folders or attempts to access your sensitive files.
- **Monitor Privileged Users Activity**
Monitor what third parties are doing in managed environments via Screen Activity Video Recording

Compliance as a Service

Pass compliance audits: PCI DSS, HIPAA, SOX, FISMA, ISO 27001 and others.

- **Get a Single Point of Access to the Audit Trail**
Netwrix Auditor enables security controls across your entire IT infrastructure by supporting the broadest variety of audited systems, and serves as a single point of access to the complete audit trail.
- **Prove Compliance with Data**
State-in-time™ reports allow you to provide details on security configurations at any point in time so you will be able to prove to auditors that specific processes and controls are and were always in place.
- **Out-of-the-box Compliance Reports**
prove your compliance with hard data by providing out-of-the-box reports mapped to specific regulatory compliance standards
- **Access to Audit Trail for More Than 10 Years**
Keep a complete audit trail archived for more than 10 years for later review and periodic checks by auditors.

Our Promise.

- ☑ One monthly fee for total Managed IT Services support.
- ☑ A strategic ongoing partnership built on industry standards and total alignment to your core business goals.
- ☑ A support plan tailored to meet the needs of your business with a structured response and maintenance agreement.

CSPi Technology Solutions focuses on five core areas of technology. Along with Professional Services and Managed Services, we also work with our clients on solution architecture and project management.

About CSPi Technology Solutions.

CSPi Technology Solutions (NASDAQ: CSPi) is a global provider of innovative technology solutions including network solutions; wireless and mobility; unified communications and collaboration; data center solutions; advanced security; and managed services. CSPi Technology Solutions works with the world's leading IT software and infrastructure companies to create solutions for the unique IT requirements of its customers.

About Netwrix.

Netwrix Corporation is the IT auditing company, providing software that maximizes visibility into who changed what, when, where and who has access to what. Over 6,000 customers worldwide rely on Netwrix to audit IT infrastructure changes and data access, prepare reports required for passing compliance audits and increase the efficiency of IT operations. Founded in 2006, Netwrix has more than 70 industry awards and named to the Inc. 5000 list and Deloitte Technology Fast 500.
